

TAFE NSW Institutes 2008

Your unique Australian study experience

Study IT Networking in Sydney

19016 Diploma of Information Technology (Networking)

This course is for people who want to lead a team working with computer networks. You will also acquire skills in network design and building, network troubleshooting and network security.

When you have finished this course you will be able to maintain and guide teams and manage networking projects in an information technology environment.

This diploma articulates into a Bachelor of Computing at the University of Western Sydney. Students who successfully complete the Diploma of Information Technology will receive up to a year of credit.

Information Technology diplomas are also available in the areas of Systems Administration, Website Development, Software Development and Database design and Development.

Information Technology (Networking) is currently an occupation in demand in Australia.

Sydney College of English is one of the oldest independent English Language Schools in Australia. Our English courses are of the highest standard delivered by teachers dedicated to their classes. All our teachers are University graduates with specialist qualifications in Teaching English as a Second Language. The school is located within walking distance to TAFE NSW Sydney Institute.
