Student Testimonials

Dear SCE,

I'm Pramote from Thailand, I was your student in 2004 (6 months period with 100% in class) and this is my first time to send you an e-mail. Today I think that my life is very successful after my English is improved a lot from study in SCE. Now I am working in 3M Thailand as a technical service engineer and have opportunity to have conference in USA because my English is good enough also I am studying a master degree at King Mongkut Thonburi, Thailand in the major of applied of linguistic for English teaching. I think that if I did not study with you my English would be very poor and did not have good opportunities like this.

Thank you very much for your teachers especially, Azra, Jo, Mary Ann and others. They make me love English and think that it is not difficult to study a second language. Are they working in your school now?
